Mommy & Me Kokedama Floating Mountain Workshop (ages 6-10)

Spend some quality time with family as we discover the beautiful growth and nurturing nature of plants during this Mommy & Me Kokedama Floating Mountain Workshop! "Kokedama" translates to Moss Balls, and is the perfect home decor for those wishing to green up their interiors while taking advantage of vertical space. These hanging moss balls also provide habitat for plants that are specially adapted to growing up high in tree canopies! During this workshop, each mommy & me pair will explore the world of these air-loving plants and be able to work together to create a hanging mini-mountain of plants in their moss ball habitat.

Creative Theatre Camp (ages 7-10)

Have you ever wanted to star in a play you helped create? Join us this summer, as campers learn all about theatre by doing it themselves! Children are guided, by the instructors, through a process where they play theatre games, create a story, and work together to make that story into a working theatrical production. The participants create their own character, plot, props, costumes, title, and everything else that's needed to make the production complete. You get to play the part you have always dreamed of! The final day is a performance of their original play for family and friends.

Electronic Game Design: Invader Defense--Alien Invasion! (ages 8-12)

Video games are everywhere and in almost every form you can imagine. In the Electronic Game Design: Invader Defense program, we will create our own version of an invader defense game where we will defend against an invasion. We will use the Engineering Design Process to create a storyboard to outline the rules of play and characters for our game.

Safe Functional Fitness for Spinal Instability (ages 40+)

As we age, we lose strength in the muscles that support our spine, and our spine can compress and curve. This is a safe exercise program to improve overall strength and spinal stabilization. Improved spinal stabilization will allow for spine elongation and decompression which will often reduce pain and increase tolerance to activity. This class is safe for people with kyphosis, scoliosis, and osteoporosis. The goal is to provide education to improve alignment and spinal mechanics to reduce spinal compression and pain. I will review safe postures and spinal movement to reduce scoliosis and kyphosis progression and reduce risk of spinal compression fractures. I will teach safe exercises during class to be performed at home between classes. The classes are spaced to allow for time for exercise performance and advancement.
