AGENT992 ROBOT (ages 8-12)

Build and take home your very own *Agent992 Robot*! This smart undercover robotics kit will entertain and teach infra-red capabilities to inquisitive minds. It consists of 140 assembly pieces and is equipped with an infrared radar so it can capture its surrounding conditions! A classified press-button switch instructs your *Agent992 Robot* to transform into 3 investigative modes: Forward mode, Gesture Control mode, and Auto Navigation mode. Forward mode executes basic forward direction where its eyes turn red. Use your hand's forward and backward motion to guide your robot when Gesture Control mode is activated, and its eyes turn blue. Compete with your classmates by designing obstacles or maze courses! *Agent992 Robot's* Auto Navigation Mode will set it on its secret mission as its eyes turn purple and automatically avoids obstacles on its own. This super cool robot is educational, entertaining, and fun!

Safe Functional Fitness for Spinal Instability (ages 40+)

As we age, we lose strength in the muscles that support our spine, and our spine can compress and curve. This is a safe exercise program to improve overall strength and spinal stabilization. Improved spinal stabilization will allow for spine elongation and decompression which will often reduce pain and increase tolerance to activity. This class is safe for people with kyphosis, scoliosis, and osteoporosis. The goal is to provide education to improve alignment and spinal mechanics to reduce spinal compression and pain. I will review safe postures and spinal movement to reduce scoliosis and kyphosis progression and reduce risk of spinal compression fractures. I will teach safe exercises during class to be performed at home between classes. Participants must be able to get on and off of the floor with the assistance of a chair if necessary. ***Yoga mat required; two yoga blocks are recommended** **Please check website for additional dates.**

Beginner's T'ai Chi Chih® (Non-Martial Art)

T'ai Chi Chih is a gentle, mindful, moving meditation with many health benefits that may be taught seated as well as standing. This particular form is adopted by UCLA for research, demonstrating its effect on helping to increase immunity, improve sleep quality, and decrease the symptoms of depression. It is widely accepted that T'ai Chi improves balance and lowers high blood pressure. Because of its effectiveness, this moving meditation has recently been written about in The New York Times, AARP National Magazine, and many other publications. Learning T'ai Chi Chih would be an excellent way to commit to improving your health and increasing your happiness now. Great for beginners and seniors.
